Smart Cafeteria

SmartCafeteria™ is a cashless Cafeteria solution designed to simplify and enhance Cafeteria management in medium and large enterprises.
SmartCafeteria™ is a fully integrated solution that eliminates the tedious activities related to cash handling and reconciliation of vendor accounts in a Cafeteria.

It greatly simplifies the difficult task of managing Cafeteria operations for the HR, Admin and Facilities Management teams, as it brings about speed, accuracy, transparency, automation and un-contestable transaction trail which greatly minimizes contention between all stakeholders.

Cards supported: HID iClass, HID Prox, MiFare, EM
Scalable
Supports multi-site, multi-vendors and multiple SmartCafeteria terminals. Tested with extensive workloads supporting 15000+ Employees. Typical Transaction time less than 800 milli-seconds.

Debit Management
Set day limit or month limit on the amount an employee is entitled to spend. Expire entitlement at end of day, end of shift, end of month. Provide a grace period after shift for user to consume his/her entitlement.

Credit Management
Credit entitlement to employee based as per HR Policy. Based on attendance, shift-timings or daily/monthly basis. Option to carry forward entitlement to next day, next month.

Subsidy Management
As per HR Policy, subsidy can be configured
- On Item basis.
- On meal basis.
- On Employee grade or type.

Menu Management
Allows the organization to specify meal hours. Control vendor-wise, meal-items and price. Capture item-wise sales for demand-supply management.

Seamless Integration with your Organization’s Systems
Integrated with your HRMS and Access Control System. Employee Master and Smart-Card data auto-synchronized. Integration with Active Directory Services (ADS) / LDAP.

Special handling for Guests, Visitors, Higher Management
Issue cards with pre-loaded values. Allocate visitor expenses between teams, business units. Present a friendly environment to guests, visitors and higher management.

Terminal Management
Manage and monitor SmartCafeteria terminals using Web-based Interface.

Terminals available in following form factors
- Desktop
- Wall-mount
- Dual Screen
KEY BENEFITS

Low initial cost:
Works with existing Employee ID Cards, including EM, proximity cards and smart-cards.
No additional investment for issuing additional cards.

Control Cafeteria costs:
Entitlements available to the employees during the applicable time-slots only, with appropriate day and month limits.

Vendor billing settlement:
Vendor settlement is driven by the organization, rather than the Vendor.

Reduce HR, Admin Team work-load:
Simplifies the difficult task of managing Canteen operations.
Saves time and effort for the HR, Admin and Facilities Management teams.

Cafeteria as a ‘Cost Centre’:
Employees can be grouped into their respective teams or business units and cost allocation is directly derived from the reports.

Contention-free operations:
Completely automated and transparent reporting - for Canteen Vendors, Employees and Admin Team, reduces contention to a minimum.

Eliminates use of Cash or Coupon, resulting in:
Faster transactions, smaller queues.
Cash and change handling minimized.

Centralized control:
Centralized control of Cafeteria operations.

Comprehensive online reports:
Detailed transaction reports ensure Audit compliance.
